

AUDIO ENGINEER ROLE DESCRIPTION

The Audio Engineer contributes to compelling, distraction-free worship services by overseeing all audio production that impacts Sunday morning worship services, weeknight services and other special events in the Worship Center; by training, inspiring, and developing the volunteer audio team for live events; and by designing, installing, and maintaining audio equipment in the Worship Center and CHCC campus as needed.

RESPONSIBILITIES

Model a Growing and Vibrant Relationship with Christ

- Pursue full devotion to Christ and live the life we are inviting others to live
- Manifest the fruit of the Spirit in work habits and relationships

Demonstrate Commitment to Cherry Hills

- Pursue church membership and live out the four commitments of active membership
- Be an active, engaged participant at weekend / weeknight services and in a Section Community

Provide Expertise in Audio System Set Up and Operation

- Execute Front-of-House and Monitor positions, using volunteers or contractors as needed
- Evaluate quality and the most effective use of existing audio equipment

Recruit and Lead a Highly Effective Audio Volunteer Team

- Build a culture defined by love and unity
- Train, lead, and direct volunteer team for maximum impact

Perform Other Duties and Tasks as Assigned

Model Servant Leadership and Exhibit a Helpful, Joyful Attitude

Demonstrate a Commitment to Growth

- Receive and apply training and development from the Technical Arts Director
- Attend department and All-Staff meetings

OTHER REQUIREMENTS

- 5+ years of live audio production and crew management
- Expert knowledge of live event/broadcast audio systems

POSITION TYPE: Full-Time, Exempt

HOURS PER WEEK: 40+
